

Building with LLMs: The Developer's Handbook

Table of Contents

Dedication	Page 4
Preface	Page 5
How to Use This Book	Page 7
1. Introduction to Generative AI & LLMs	Page 8
2. The LLM Landscape	Page 20
3. Working with LLM APIs	Page 34
4. Model Capabilities & Limitations	Page 52
5. Prompt Engineering Fundamentals	Page 67
6. Prompting Techniques	Page 84
7. API Parameters & Output Control	Page 104
8. Prompt Iteration & Evaluation	Page 120
9. Conversation Design & Multi-turn Chat	Page 135
10. Embeddings & Vector Databases	Page 150
11. Retrieval-Augmented Generation (RAG)	Page 165
12. Security & Guardrails	Page 182
13. Cost, Latency & Error Handling	Page 197
14. Ethics, Bias & Evaluation	Page 213
Appendix A: Hands-on Labs Reference	Page 231
Appendix B: Capstone Project	Page 232
Appendix C: Setup & Installation	Page 233
Appendix D: Further Reading & Resources	Page 234
About the Author	Page 235
Index	Page 236
